Construction Foreman Corrosion Technician

APPLICABLE PROFESSIONAL EXPERIENCE:

1997 to Present - Experienced in cathodic protection systems on well casings and pipelines. Survey and evaluate existing cathodic protection systems. Areas of experience are oil and gas fields in Four Corners area. Refinery and chemical plants, storage tanks, natural gas transmission and distribution pipeline systems.

Southwest Gas - Project Foreman on Casa Grande Arizona deep well ground beds installation project.

Coastal Oil and Gas, Cheyenne, Wyoming - Project Foreman on pipeline and tank batteries. 120 - 20 ft. holes for protection of tanks and transmission lines. 10,000 feet of trenching in new rectifiers and junction boxes and splicing all cables.

Colorado Interstate Gas, Pueblo, Colorado - Project Foreman for installation of surface ground beds. Installation of rectifiers and junction boxes. Splicing of cables and running of backhoe.

Colorado Interstate Gas, Colorado Springs, Colorado - Installation of surface ground beds. Use of auger truck for drilling.

City of Colorado Springs - Project Foreman on installation of surface ground beds for protection of water plant. Installed solars and rectifiers for protection of pipeline.

Williams Field Services, Ignacio Colorado - Installation of twenty panel solar system for cathodic protection system.

Burlington Resources - Field Foreman on installation of deep well ground beds. Around 100 ground beds per year. Trenching of all cable, new and used solars, thermal electrical generators, and meter poles for protection of well casings.

Dolores Water Project - Surveying of all cathodic protection stations on irrigation canals.

Texaco, Aneth, Utah - Foreman for installation of ribbon anode system for protection of tank battery.

Navajo Irrigation Project - Survey of cathodic protection stations on irrigation canals.

Conoco Phillips- Foreman for installation of deep well ground beds, solars, rectifiers and thermal electric generators for protection of well casings.

Amoco - Foreman for installation of deep well ground beds for well casing, installing solars, rectifiers and meter poles.

El Paso Natural Gas - Foreman for installation of deep well groundbeds for protection of pipeline.
PNM Gas - Foreman for installation of deep well ground beds, installing rectifiers and thermal electrical generators.

San Juan Power Plant Deepwell Groundbeds with rectifiers
Burlington Resource Deepwell Groundbeds with rectifiers and Solars
Redcedar Gathering Deepwell Groundbeds with rectifiers Durango Colorado
Redcedar Gathering surface Groundbeds with solar systems
Citation oil and Gas Escalante, Utah Deepwell Groundbeds rectifiers and annual surveys Dolores
Dolores Water Concrete reinforced canal monthly surveys and CIS surveys
Ute Farm Concrete reinforced water canal Monthly surveys and repairs
Dugan Production Deepwell Groundbeds with rectifiers and Solars systems

Education and Training

Issuing Institution	Location	Qualification	Course of Study
Farmington High School	Farmington, NM	High School Diploma	General High School Curriculum

Occupational Licenses & Certificates

Certification Title	Issuing Organization	Completion Date
CP1 Cathodic Protection Tester	NACE	02/2007
UST Cathodic Protection	International Code Council	09/2004

26 years' experience in Cathodic Protection
